"The musicianship of this all-star group was off the charts. The ensemble was remarkably tight...The songs ranged from more laid-back Windham Hill-inspired melodies to up-tempo grooves with stellar solos from Todd and Premik.

Primarily instrumental music with ambient background vocals, a surprise of the evening was when the group accompanied Lola who sang a stunning rendition of Neil Young's "Down By The River."

All in all it was a memorable and rare event with many wow-moments." - Michael Diamond - Music Media & Focus
